

PINNACLE
TREATMENT CENTERS

2023 | ANNUAL REPORT

Residential, Outpatient & Medication-Assisted Treatment Programs

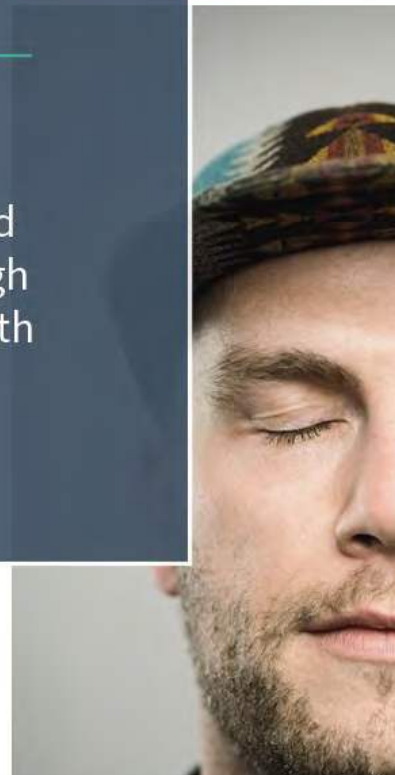

Our Mission

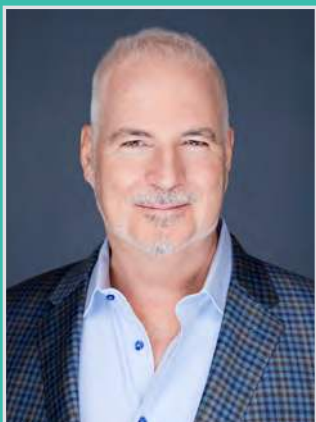

To make recovery possible by transforming lives, communities and the families we serve with treatment that works.

Our Vision

We envision a better world where lives and communities are made whole again through our comprehensive treatment of people with substance use disorder.

Welcome our new CEO, Michael Lawler!

Michael is a leading provider of SUD addiction services. He joined the Pinnacle team in September 2023 and continues his mission and values-driven approach to providing access to care for the broad population of patients in need.

Previously, Michael served as CEO of CHE Behavioral Health Services, where he spent 6 years as a seasoned operator, adding to his more than 30 years of healthcare experience. Michael began his career in healthcare at Apria Healthcare with 14 years of service, a national DME, home care and pharmacy services provider in a variety of operations and sales roles culminating as VP of Field Operations. He later moved to Alliance Healthcare Services, a national Medical Imaging and Medical/Radiation Oncology business where he spent 6 years as VP of Field Operations. He later became the COO of TwinMed, LLC for 7 years, a national medical supplies and services company.

Outside of Michael's direct operational roles he has served on several healthcare and charitable boards. He continues to be extremely active with legislative activities at both the state and federal level.

We know how difficult active addiction is,
so we treat every person who walks through our
doors with empathy and compassion, no matter
their circumstances, background, or zip code.
This commitment ensures that quality care is
accessible to all.

A bittersweet farewell to Joe Pritchard

Thank you to Joe Pritchard for his 13+ years of service as Pinnacle Treatment Centers' CEO and for his continued leadership and vision as a part of our Board of Advisors!

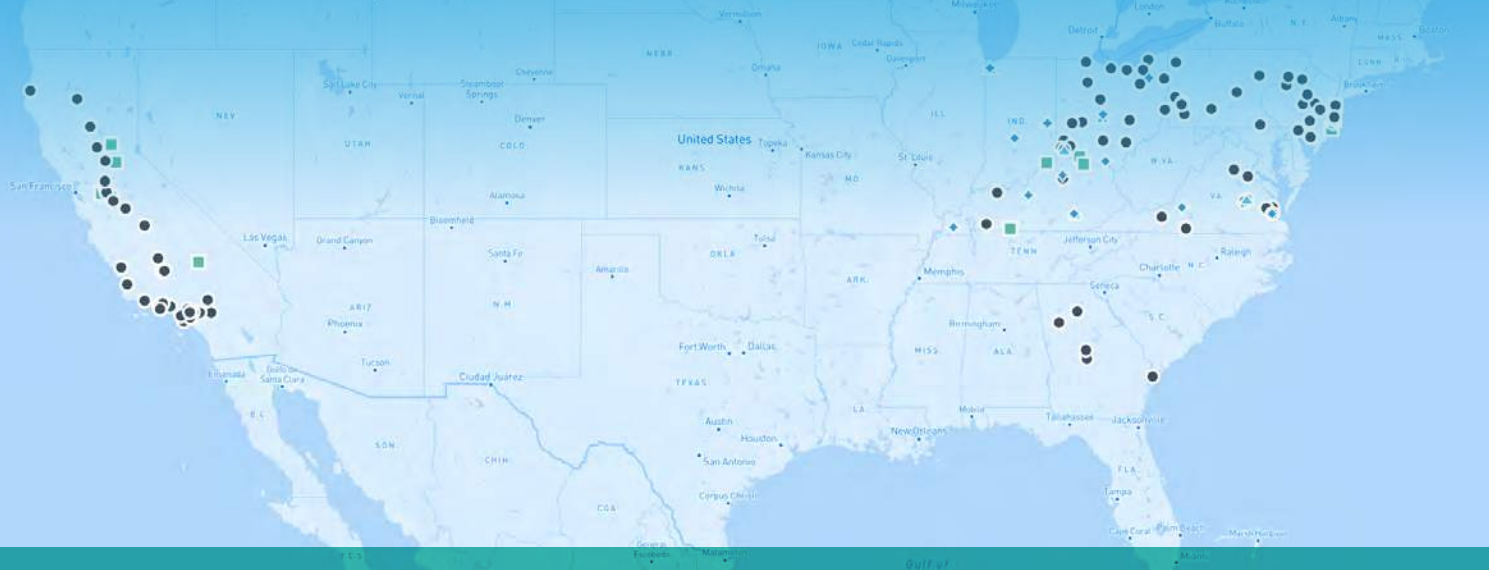

Because we put our patients' recovery first,
Pinnacle Treatment Centers is committed to
doing whatever it takes to help them on their
journey toward healthier, happier lives.
We provide a full continuum of community-based
care, from medication-assisted treatment and

Our Approach To Lasting Recovery

residential programs to outpatient and alumni
programs. We innovate, trying new tools and
treatments and keeping those the evidence
says works. And we partner with regulators
and payers to ensure both patients and
communities have the services they need.

The Pinnacle Treatment Centers Network treats over 35,000 patients daily across nine states.

With 140+ locations across nine states, we provide a full continuum of care that includes detox, residential, outpatient, and transitional living programs, supported by a wide-reaching and active alumni network. Our philosophy is to treat the whole person and stand by every patient for life - not just during treatment.

WE TREAT PATIENT'S PHYSICAL, EMOTIONAL, SPIRITUAL, AND PSYCHOLOGICAL WELL-BEING.

Pinnacle Treatment Centers facilities are either CARF accredited, Joint Commission accredited, or seeking accreditation, with decades of delivering positive, life-changing outcomes for patients, families, and communities. Our team of credentialed physicians, nurses, clinicians, and administrative and support staff provide a full continuum of quality care that includes detoxification for residential and outpatient clients as well as transitional living programs.

We are:

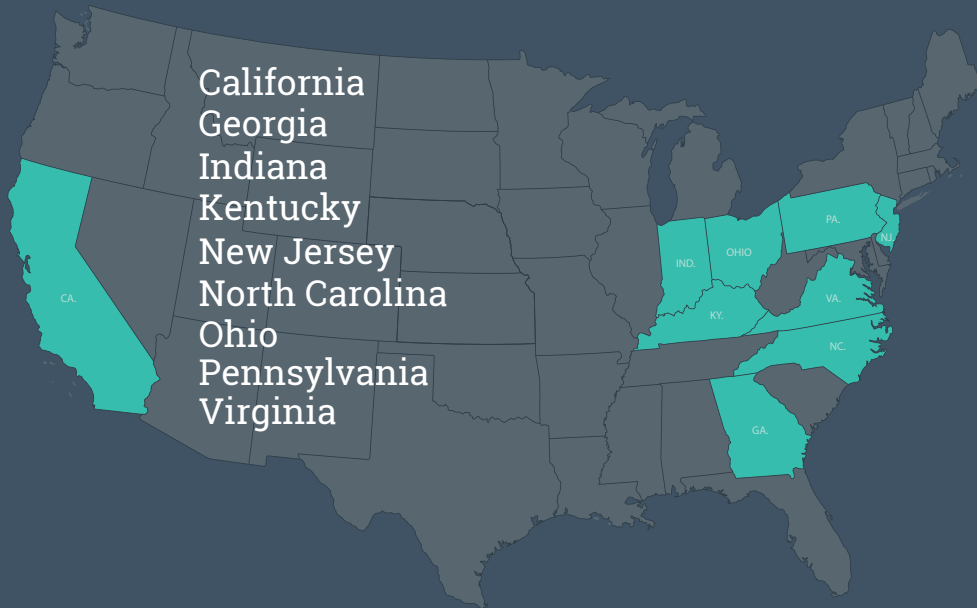

- Headquartered in Mt. Laurel, NJ
- One of the largest treatment providers of opioid treatment services in the USA
- Largest Opioid Treatment Program provider in PA
- Largest Opioid Treatment Program provider in NJ
- Largest Opioid Treatment Program provider in CA
- Largest integrated substance abuse treatment provider in KY
- First provider in Indiana to have all levels of care on one campus

We provide:

- Outpatient Opioid Treatment Programs (OTP)
- Inpatient Residential Treatment Centers (RTC)
- Detoxification: Medically monitored inpatient service; Non-hospital based, short term care; 24/7
- Inpatient rehabilitation: Medically monitored service with 24 hour per day activity regimens that address addiction and living skills problems
- Long-term residential treatment: 24/7 program designed to foster recovery skills and community re-integration
- Partial Hospitalization (PHP): Broad array of clinically intensive services provided in a structured outpatient environment
- Sober Living Communities
- Intensive Outpatient Care (IOP): Range of treatment that is provided on a weekly basis; less intensive service than partial and residential treatment
- Medication Assisted Treatment (MAT), including Methadone, Suboxone, Vivitrol, and other medications
- Individual, family, and group counseling
- Physical exams and lab work

Pinnacle Treatment Centers is growing and adding locations throughout the United States.

Residential and Outpatient programs available in these states.
